

Green Policy

TV Energy as an organisation, is committed to reducing its own carbon footprint and impact on the environment. By reviewing the following Green Policy on a regular basis we ensure continual improvement to our practices.

Waste Reduction

- We use electronic communication to minimise printing and posting of documents.
- All proposals that do have to be printed are printed doubled sided to reduce amount of paper used.
- All office paper is re-used and recycled.
- Toner cartridges and mobile phones are recycled through charity schemes.
- All cans, plastic and cardboard is collected and recycled, food items are composted.
- We do not produce un-necessary brochures, and make efficient use of our website so visitors can download information for themselves.

Energy Usage

- We are careful to ensure all un-necessary equipment, is turned off during the day when not in use.
- We ensure un-necessary lights are switched off and the kettle is filled with the correct amount of water when making rounds of tea!
- All equipment is switched off and unplugged over night to avoid energy wastage.

Purchasing / Suppliers

- Where possible we buy from like minded ethical suppliers, for example all tea and coffee is brought from a Fair Trade organization.
- We purchase 100% recycled office paper.

Travel

- Staff travel together when attending external meetings to limit the number of cars required, and where possible use public transport.
- Staff cycle or use public transport to commute to work where this is possible/ appropriate.
- Where possible staff are set up to enable them to work from home, reducing un-necessary travelling.
