Dear Keith and Charlotte,

**Re: Utilisation of Organic Waste for Sustainable Energy Production. Entrust
Ref: 760828.064**

I write to confirm receipt of the final report including annexes for the above project. I thank you for addressing so promptly the points we discussed at our project closure meeting on January 25th.

May I congratulate you both on the quality and potential usefulness of the work you have put into the project and for your professionalism. I am confident that over time this contribution, along with all else you are doing, will be recognized as having made a difference to the prospects of sustainable energy production.

With thanks and best wishes

Yours sincerely

R W Radley
